
NATURAL HISTORY NOTES

PHYLLODRYAS VIRIDISSIMUS (Common Green Racer). BRAZIL, BAHIA: Porto Seguro, Fazenda Vera Cruz (16° 20'S, 39° 10'W, 90 m), 14 November 1994, R. P. Silva. Instituto Butantan (IB 57195). Verified by Hebert Ferrarezzi. The species was known from the Amazonian forest of northern South America; its occurrence in the Atlantic forest of eastern South America was uncertain (Thomas 1976, unpubl. Doctoral Dissertation, Texas A&M University, College Station). First record from Atlantic forest; extends distribution eastward.

Submitted by **OTAVIO A. V. MARQUES** and **FRANCISCO L. FRANCO**, Laboratório de Herpetologia, Instituto Butantan, Avenida Vital Brasil, 1500, CEP 05503-900, São Paulo, São Paulo, Brazil.
